

“ To make Made-in-China
a good name around the world. ”

YIXIN TITANIUM

-Your Professional Metal Material Supplier!

-Global Top 500 Enterprise A Rated Cooperator!

Main products: Titanium bar, forgings, ring etc.

YIXIN Titanium is located in “Titanium valley” –Baoji, Northwest of China.

The company was founded in 2003 with an area of more than 20,000m². It possesses at least twenty sets of professional equipments, including forging hammer, peeler machine, forging furnace, heat treatment furnace, NDT equipments etc, which already been qualified as per API 6A & Norsok M650 Standard. There are more than twenty professional technical personnel and more than forty other relevant staffs working for the company at the moment. Also the company has passed the DNV Verification and obtained internationally accredited ISO9001:2008 quality management system certification.

The principle business for our company is to manufacture and manage titanium and its related products (wire, rod, ring, forge piece, pipe/tube and customized products). The manufacturing process strictly abides by related international standards of Norway, USA, Germany, Russia and Japan to ensure the qualified products. After entered the international market in 2008, gradually we have been cooperating with international customers from USA, Germany, Norway, India, Mexico and some other foreign countries.

With the superior products, advanced equipments, exquisite techniques and impeccable quality control system, we have established a stable domestic and international business position during the past years. We persist in the principle of precise managing, faithful to customer, qualified products and value creation in order to provide inexpensive products with high qualities and good service to satisfy our customers.
